## NOTES.

The College closed for the Long Vacation on the 12th April and reopened on Monday the 5th July. Work commenced on Tuesday the 6th July in the old classes and on Thursday the 15th July in the newly-formed 1st and 3rd year classes. We accord a hearty welcome to our teachers and students, old and new, at the commencement of the new Session.

We congratulate Dr. Pravatchandra Sarvadhikari (one of our brilliant ex-students) on his having been awarded the Mosley Exhibition for further research. We are, however, sorry to add in this connection the distressing news that on his way back to Colombo from France (where his University had sent him to attend the Scientific Congress) Sj. Sarbhadhikari was shipwrecked off Aden. Fortunately he has had a miraculous escape and is proceeding to Colombo. We send him our *asis* and wishes for a long and glorious career.

PROF. S. C. CHAUDHURI has been granted leave for one month to which is added the Puja vacation with a view to enable him to proceed to England to deliver a course of lectures in Cambridge for which he has been invited by the Cambridge University on a nominal honorarium of twenty-one guineas Dr. Chaudhuri holds the M.A. and the Doctor's Degree of the above University. The subject of his lecture will be "What appeal has Shakespeare for Indian students?" He left Calcutta by the English Mail of the 16th instant. We wish him a *bon voyage*.
