

have passed in the First Division, 4092 in the Second Division and 525 in the Third Division, bringing up the total to 10240. If it has been republished rather late in the day, we only follow suit by calling the attention of our readers to it in our *November* issue!

Though this republication came late, we have by no means heard the last of the Matriculation Examination of 1919. The Calcutta Gazette of the 1st October announces that another candidate has passed the Examination in the 2nd Division. The same issue of the Gazette also announces an addition to the list of successes at the B. Sc. Examination. We congratulate these two candidates on their ultimate success.

THE COLLEGE UNION.

The College Union held its fifth sitting on Sunday the 21st September in the evening and it was a pleasure to find that the attendance on this occasion on the eve of the Puja Vacation was more satisfactory than on previous occasions. The fare, both material and intellectual, was richer than before and all enjoyed it with full zest. Professor Bhavabibhuti Bhattacharyya read a very entertaining paper embodying a fairly long extract from one of the Puranas on *Taila-mahātma*, and this was followed by a highly amusing paper from the pen of Professor Lalitkumar Banerjee with the somewhat misleading title of *Byārtha Prayāsa* (Abortive Attempt), embodying an interesting record of feminine influence on the great writers of the world. The papers and the songs were highly appreciated by the audience. A song written for the occasion by S. J. Indranarayan Mukherjee (Demonstrator in Physics) is printed on a later page.

OUR EXCHANGES.

Chitragong College Magazine, Summer Number (received in Autumn). Mahamandal Magazine for July. St. Columba's College Magazine for August. Canning College Magazine for August.
